*Relive the Moments - Mathematics Show & Tell Activity
Grades I to V*

Dear Parents & Students,

"Every confident presentation reflects not only knowledge but also the joy of learning."

Our **Mathematics Show & Tell Activity** was a delightful showcase of young minds exploring mathematical concepts with creativity, confidence and enthusiasm. Using everyday mathematical objects, thoughtful explanations and engaging presentations, our budding mathematicians transformed learning into an enjoyable and meaningful experience.

*To relive these wonderful moments, download the
photographs of the event:*
