Nursery to Grade XII

E-Waste Collection Drive

Dear Students,

In our continued effort to promote environmental awareness and responsible waste management, we are organizing an E-Waste Collection Drive under the initiative of the Eco Club.

How Students Can Contribute:

- **Students are encouraged to bring small unused or non-functional electronic items from home (with parental permission) such as earphones, old chargers, batteries, toys with circuits, calculators, etc.**
- **Students must hand over their e-waste items to their respective class in-charges.**
- **The collected items will be responsibly handed over to an authorized recycler for proper disposal.**

Last Date for Submission: 6th November 2026

Let's come together to make a positive impact on our planet — Reduce, Reuse, and Recycle!
